

Checking In

All patients check in for appointments at the reception desk located at the left side of our lobby. If someone is at the window ahead of you, please make a line behind them. We ask that you bring your insurance cards and a list of current medications with you to every visit. Co-pays are due at the time of check-in and should be made the day of your appointment. Please notify us immediately of any changes to your address, phone number or insurance so that we may serve you more efficiently. If you have changes to be made, please arrive a few minutes prior to your appointment time.
